

Hello Future Second Graders!

Enclosed is a small packet for you to work on over the summer. I have some adding and subtracting worksheets as well as a choice for summer reading.

Summer reading choices include: Magic Treehouse books by Mary Pope Osborne, Junie B. Jones books by Barbara Park, A to Z Mysteries by Rob Roy and Nate the Great by Majorie Weinman Sharmat. You may choose a book from another series. These are just some suggestions.

Please read your book and complete the paper enclosed to tell me a little about the story you read.

Enjoy your summer!

Mrs. Nester

Summer is a fun time to observe nature — especially through a magnifying glass!

Magnifying Pattern

Here is how you can make a simple magnifying glass to discover things in your own backyard.

**Directions:**

1. Trace a copy of the magnifying pattern onto heavy paper or cardboard.
2. Cut out the magnifying square.
3. Cover with a small piece of clear plastic wrap, taping in place past edges of the magnifying square.
4. Place a few small drops of water onto plastic wrap with an eye dropper.
5. Look through the magnifying lens to observe the little things in the world around us!
